

Installing a manifold/control system

HRC 3000 Metso crusher cylinders

Written by Maritime Hydraulic on January 06, 2016 at 14:50:39

Today we installed the manifold/control system for the HRC 3000 Metso crusher cylinders (June 23rd, 2014). This is a cool project. Huge cylinders, loaded with high-tech. This heavy industrial hydraulic cylinder is being prepared for hydrostatic testing to 4,500 PSI and includes an integral control manifold and position-sensing system.
