

# **Tensioner System for ultra-deep water**

## **1/5 scale model**

Written by Maritime Hydraulic on January 09, 2016 at 11:48:04

Development of a 1/5 scale prototype of a Tensioner System for operation in deep and ultra-deep water, designed / developed / load tested at our facility in 2014. The next phase of the project is the

development and testing of a full size prototype.
